

Broad-spectrum preemergence cotton herbicide

Brake[®] Herbicide

Provides excellent foundation grass and broadleaf weed control

- **Excellent Pigweed (Palmer amaranth) control, you can count on**
- **Great residual control in wet conditions, when you can't get in the field**
- **Safest preemergence available for your cotton**
- A unique chemistry in cotton for resistance management on your farm
- Compatible with all herbicides you need to use in cotton
- Gives you crop rotation flexibility for your farming operation

Crop Rotation Restrictions

Crops to be Planted	Minimum Rotation Interval (months after last Brake application) ¹		
	16 fluid ounces or less Brake per acre	17 - 21 fluid ounces or less Brake per acre	22 - 32 fluid ounces or less Brake per acre
Cotton	0	0	0
Sweet Potato	2	2	2
Soybean	2	4	12
Peanut	8	8	8
Rice, wheat, barley and rye	8 ²	8 ²	12 ²
Corn and sorghum	10 ³	12 ³	18 ³
Alfalfa, sunflower and crops in the Solanaceae family (e.g. peppers, tobacco, tomatoes)	18	18	18

¹ West TX only add 4 months to rotational restrictions for all crops except cotton and peanut.

² If used as a cover crop (i.e. will not be harvested), wheat, barley, and rye may be planted 5 months after the last Brake application if no more than 16 fluid ounces were applied.

³ Minor chlorosis and stunting of corn and sorghum may occur, especially if heavy rainfall occurs during or soon after emergence, but plants typically outgrow these effects and develop normally. If this product is used for two consecutive years in the same field at a rate greater than 16 fl oz per acre, only plant cotton, peanut or sweet potato the following year in those fields.

SePRO Ag[™]

Brake Herbicide Program

Stop Pigweed. Protect Cotton.

Plan Your Program, Work Your Program!

Program for overall weed control and resistance management.

Start weed free, stay weed free • Use multiple modes of action • Overlap residuals

Steps	1) Burndown	2) At Plant Residuals	3) First Post	4) Second Post (If needed)	5) Layby (If needed)
Timing	PrePlant 2 months to 1 week prior to planting	Behind the Planter Within 36 hours after planting	Post 1 Within 18 days after planting	Post 2 Within 18 days after Post 1	Layby Within 18 days after Post 2
Treatment Description	Non-residual product plus residual product (check crop rotation intervals)	Non-residual product plus Brake and 2nd residual product	Post non-residual product(s) plus residual product	Post non-residual product(s) plus residual product	Post non-residual product plus residual product
Non-Residual Herbicide Examples	2,4-D, Roundup®, dicamba, Gramoxone®	Gramoxone, Roundup (Do jar test if adding Gramoxone)	Roundup, Liberty®, XtendiMax®, Engenia®, Enlist One®	Roundup, Liberty, XtendiMax, Engenia, Enlist One	Roundup, MSMA
Residual Herbicide Examples	Valor®, Leadoff®, Direx®	Brake, Reflex®, Cotoran®, Warrant®, Direx	Dual Magnum®, Outlook®, Warrant	Dual Magnum, Outlook, Warrant	Direx, Valor, Cotoran, Zidua®
Examples of Common Mixes	<ul style="list-style-type: none"> • Valor plus 2,4-D plus Roundup • Valor plus dicamba plus Roundup • Roundup plus Leadoff • Valor plus Roundup • Direx plus Gramoxone 	<ul style="list-style-type: none"> • Brake (16 oz) plus Reflex • Brake (16 oz) plus Cotoran • Brake (16 oz) plus Warrant • Brake (16 oz) plus Direx <p>Add Gramoxone to all applications if any emerged weeds are present at planting. (Do jar test if adding Gramoxone)</p>	<ul style="list-style-type: none"> • Enlist™ Varieties: Enlist One plus Roundup • XtendFlex® Varieties: Roundup plus Engenia or XtendiMax • GlyTol® LibertyLink® Varieties: Liberty plus Dual Magnum • XtendFlex, Enlist, and GlyTol LibertyLink Varieties: Liberty plus Dual Magnum or Warrant 	<ul style="list-style-type: none"> • Enlist Varieties: Enlist One plus Roundup • XtendFlex Varieties: Roundup plus Engenia or XtendiMax • GlyTol LibertyLink Varieties: Liberty plus Warrant • XtendFlex, Enlist and GlyTol LibertyLink Varieties: Liberty plus Dual Magnum or Warrant 	<ul style="list-style-type: none"> • Direx plus MSMA • Valor plus MSMA • Cotoran plus MSMA • Caparol plus MSMA • Roundup plus Zidua • Roundup plus Valor
